Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 10 and 11 are rejected under 35 U.S.C. 103(a) as being unpatentable over Pavelle et al (5,414,476) in view of Loughner (3,876,295).

Pavelle et al discloses a pair of eyeglasses comprising a pair of linear polarizer lenses 7,8 each having a plane of maximum light transmission; a frame 6 for mounting two lenses 7,8 to be supported for normal vision by both eyes through the respective lenses. Pavelle et al suggests in column 3, lines 52-55 that "the frame ... can be of the type that clip onto regular glasses". Thus, Pavelle et al's pair of eyeglasses includes a clip-on bracket for convenient attachment on a standard pair of eyeglasses. However Pavelle et al do not suggests a means for manually tilting the lenses in and out of the lines of vision of the wearer. Clip-on eyeglasses including a bracket having rotation means for manually tilting the lenses in and out of the lines of vision of the wearer is commonly known in the art as taught by Loughner, for example. Therefore it would have been obvious at the time the invention was made to those having skill in the art to modify the Pavelle et al's eyeglasses in light of Loughner's teachings by forming a bracket including means for manually tilting the lenses in and out of the lines of vision of the wearer. Such a modification would not change the scope of the invention in Pavelle et al reference as the same as the applicant does.

Conclusion

3. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
